Work Offered

QTF doesn't just accept difference, they are proud to be a place of equal opportunities with an international team. The company thrives on in for the the benefit of employees, products and their partners. They are looking for exceptional people capable of thinking out-of-the-box.

During the internship student will have a chance to live in Customer Experience house where they will focus on testing new protocols for smart home and wifi. The focus of those tests is on functional performance and security aspects. The goal is to create a test environment that is as close as possible to the client's smart home environment. Laptop / workstation and phone for work will be provided.

As a test house employee you will have the opportunity to live free of charge in a modern smart home. The place is fully equipped with modern furniture and appliances, which you can use. There are three bedrooms, bathroom with toilet, separate toilet, kitchen with a living room and a garden. House is located in Wroclaw in Poswietne district and has a great connection to a city centre. You will live without housemates/alone, but 4 other employees involved in the project will visit it/the house from Monday to Friday from 8 a.m. till 4 p.m.

Start as soon as possible is preferred.
